Band: Brutal Unrest (D)
Genre: Death Metal
Label: Hammerheart Records
Albumtitle: Trinitas
Duration: 42:03
Releasedate: 13.01.2017

The new year just starts like the old one ended: with rough and magistral Death Metal from Germany.

"Trinitas" is my first encounter with this Band although they already released two albums and were formed in 2012.

Brutal Unrest gets going after a short intro without being raging. Or in other words, the listener gets mid-tempo Death Metal for the next three quarters of an hour. Only Death Metal! The ones looking for influences of other genres or innovations won't find anything at all.

The brutal riffs remind of bands like Vader, Immolation or Decide and they will now and then be loosened with melodic leads like one knows it from Dismember. A mix of american and swedish Death Metal in a way.

Vocalist Tommy Sonnenburg deserves a special praise as his voice is extremely deep and brutal but still no opaque grunting – It is simply awesome. Just the same as the production that sounds earthy and even so forceful and clear. That's how it should be.

Conclusion: This is technically well done Death Metal that is a good fodder for fans of this genre.

Rating: 7/10
